

THE PERIODIC TABLE

KEY VOCABULARY

Group: a vertical column — same number of outer electrons.

Period: a horizontal row — same number of shells.

Metals: found on the left and centre; lose electrons.

Non-metals: found on the right; gain or share electrons.

COMMON MISCONCEPTIONS

- ~~Elements are arranged by mass number.~~
- ✓ They are arranged by atomic (proton) number.
- ~~Most elements are non-metals.~~
- ✓ Most elements are metals (left of the staircase).
- ~~Group 0 elements are very reactive.~~
- ✓ Group 0 (noble gases) are very unreactive.

LAYOUT OF THE TABLE

1 HOW IT IS ORDERED

State the property used to **order** the elements. [1 mark]
