

Name: _____

Date: _____

MULTIPLICATION, (FIVE TIMES TABLE)

LO: I can recall and use the 5 times table to multiply and divide.

What is the 5 times table?

The **5 times table** is a list of **multiples** of 5: numbers we get when we count in 5s. Numbers in the 5 times table always end in 0 or 5.

Strategy: Skip-count in 5s on your fingers, or use a number line. Each jump adds 5.

Multiples of 5

●	$1 \times 5 = 5$	starting point
●	$2 \times 5 = 10$	double
●	$5 \times 5 = 25$	halfway to 10
●	$3 \times 5 = 16$	wrong
●	$5 \times 0 = 5$	any $\times 0 = 0$

Key idea

Multiplication is repeated addition. 5×4 means '4 groups of 5'. You can also think of it as '5 groups of 4' — the answer is the same.

$$\textcircled{5} + \textcircled{5} + \textcircled{5} + \textcircled{5} = \textcircled{5 \times 4 = 20}$$

Four groups of 5

MODELLED EXAMPLES

Study each example carefully before attempting the practice questions.

Example 1 – single multiplication

Calculate 6×5

6 groups of 5
 $5 + 5 + 5 + 5 \dots$
 $= 30$

= 30

Skip-count in 5s 6 times to reach 30.

Example 2 – missing factor

Solve: $__ \times 5 = 20$

How many 5s in 20?
 Count up: 5, 10, 15, ...
 $= 4$

= 4

Divide: $20 \div 5 = 4$.

Example 3 – division by sharing

Calculate $35 \div 5$

How many groups of 5 fit in 35?
 $5 \times __ = 35$
 $= 7$

= 7

Division is the inverse of multiplication.

Example 4 – word problem

A starfish has **5 arms**. How many arms do **8 starfish** have in total?
 Show your working.

Identify what is being repeated
 Set up: count $\times 5$
 Compute and check

See solution

Always show your working clearly.

YOUR TURN – PRACTICE (deliberate practice)

1. Recall the 5 times table

Complete the calculation. Skip-count in 5s if you need to.

- a) $3 \times 5 = \underline{\quad}$
 b) $6 \times 5 = \underline{\quad}$
 c) $8 \times 5 = \underline{\quad}$
 d) $10 \times 5 = \underline{\quad}$

2. Missing factors

Find the missing number.

- a) $\underline{\quad} \times 5 = 20$
 b) $\underline{\quad} \times 5 = 35$
 c) $\underline{\quad} \times 5 = 45$
 d) $\underline{\quad} \times 5 = 55$

3. Dividing by 5

Use the 5 times table to divide. $5 \times \underline{\quad} = ?$

- a) $10 \div 5 = \underline{\quad}$
 b) $25 \div 5 = \underline{\quad}$
 c) $40 \div 5 = \underline{\quad}$
 d) $60 \div 5 = \underline{\quad}$

4. Two-step problems

Work out the answer step by step.

- a) $(2 \times 5) + (3 \times 5) = \underline{\quad}$
 b) $(5 \times 5) - (2 \times 5) = \underline{\quad}$
 c) $20 \div 5 + 6 = \underline{\quad}$
 d) $(5 \times 5) \times 2 = \underline{\quad}$

5. Mixed practice

Use what you know about the 5 times table.

- a) $5 \times 7 = \underline{\quad}$ b) $60 \div 5 = \underline{\quad}$ c) $\underline{\quad} \times 5 = 30$ d) $25 \div 5 = \underline{\quad}$ e) $45 \div 5 = \underline{\quad}$

COMMON MISCONCEPTIONS – SPOT THE MISTAKE

Each statement shows a student's answer. Tick () the ones that are correct. If it is wrong, write the correct answer.

a) $5 \times 0 = 5$ ☐

Correct answer:

Reason:

b) $5 \times 1 = 5$ ☐

Correct answer:

Reason:

c) $20 \div 5 = 4$ ☐

Correct answer:

Reason:

d) $5 \times 10 = 50$ (i.e. 50) ☐

Correct answer:

Reason:

e) $5 \times 7 = 36$ ☐

Correct answer:

Reason:

6. CHALLENGE – WORD PROBLEMS (apply your skills)

a) A starfish has **5 arms**. How many arms do **8 starfish** have in total? Show your working.

Expression:

Simplified:

b) Lucy saves 5p coins. She has **45p** saved up. How many 5p coins does she have? Write a division.

Expression:

Simplified:

TOP TIPS

Read the question carefully. Show all your working step by step.
 Check your answer makes sense.

CHECK YOUR WORK

Have I shown all my working clearly?

Did I check my answer using a different method?

Does my answer look reasonable?
